CE Marking for Export Markets - Europe, North America & GCC countries
Date : 12 to 13 May, 2022
Time : 1340 Hrs to 1700 Hrs (Online Mode)

INTRODUCTION

The current emphasis of 'Make in India" and thrust being on exports makes it imperative that the industries enhance their skills and knowledge levels to succeed in the global market. One of the concern areas, is the "Compliance and legal requirements of the exporter and importer", which is often neglected in the beginning by the stake holders resulting in time delay, loss, etc., To sell a product in a Global market, one needs to understand and comply to the relevant "Law of Land" right from the design stage to avoid any potential non-compliances. The manufacturer should be well aware of the options available for conformity assessment. Cases of manufacturers exporting products and incurring losses, owing to lack of knowledge of export compliances are prevalent these days. Hence it is important, to understand the requisite export compliances before venturing into exporting of products to other countries.

Keeping this in view, IMTMA is organizing an online training on **CE Marking**. This program is aimed at providing an insight to the manufacturers of products and machinery intending to sell their products in the European markets, North American and GCC markets.
