

INTRODUCTION

IATF16949 standard has the additional demand specific to automotive industry over ISO9001. IATF16949 addresses the stringent and dynamic requirements of automotive Customers apart from the demand from the standard itself. Best practices of IATF16949 standard can be applied even for non-automotive companies.

The programme is intended to create awareness on ISO standard, QMS (Quality Management Systems), Various clauses of IATF16949, Process approach and core tools specifically demanded in IATF16949.

The Trainer shares his rich global experience in the automotive domain and will be more interactive so that the delegates to get a good foundation on IATF16949 on which they can develop further.
