

## INTRODUCTION

Although Fine Blanking existed as a technology that could economically replace multiple machining operations in certain product-segments since the first world war; in India its penetration has been rather limited to manufacturing of items like chain links, sprockets, clutch plates etc. The main reason for this has been lack of Fine Blanking Die Manufacturing and Maintenance capability and lack of knowledge about potential benefits of using this technology. This Technology has matured immensely and over the years it has improved significantly, putting to rest many pre-set notions and apprehensions that may have been restricting it.

In order to present latest update on this lesser known but promising Technology , IMTMA is organising an classroom training on **Latest Trends & Applications in Fine Blanking Technology.**

## FOCUS AREAS

- How does Fine Blanking work?
- Comparison with Conventional Blanking
- Economics and Benefits of Fine Blanking
- Limitations of Fine Blanking and how those limitations have been now overcome
- Design of components for fine blanking
- Force Calculation & Simulation
- Fine Blanking Tools
- Modern Blanking Presses & Newly added features

## KEY TAKE AWAYS

- Overview of Process, Technology and Equipment
- Existing and Potential Application Areas
- What all has improved recently
- Specifics of operating parameters and performance expectancy
- Case Studies

## PARTICIPATION FEE

**Rs. 4500/-**  
+18% GST  
**IMTMA Members/ Micro Companies/ Individuals/  
Educational Institutions / Students/ IMTMA Non  
Members/ Others**

**USD 180/-**  
**Overseas Participants**

**Group Concession : 10% for 3 to 5 and 20% for 6 and more delegates being nominated from the same company**

## FACULTY

This program will be conducted by **Mr. Sachin Nirgudkar & Mr. Avinash Khare.**

**Mr. Sachin Nirgudkar** owns a company Industrial Interface India 3i, which is working in the field of fine blanking and hot forming with well known brands such as Feintools and Benteler, Previously he has worked as MD for ABP Induction and with Schuler, Germany as vice president responsible for both sales and service activities. He has also worked with Mahindra Intertrade limited in various capacities including head of Sharjah Operations.

**Mr. Avinash Khare**, is presently working as an advisor and and Consultant Head for IMTMA Pune Technology Centre for last 5 years; he has been designing, developing content and delivering wide range of Training Courses as a Faculty. He is Electrical Engineer by Qualification and he has worked for over 33 years at Tata Motors Pune in various capacities ranging from R&D in Industrial Electronics, Machine Maintenance, Technology Procurement, Head of Machine Shops, Tool Room Shop Head, Head of Die Design and Champion in Business Excellence.

### For Registration Contact

**Santosh Singh**  
**Programme Coordinator**
