

Last date for registration 28 July 2025

INTRODUCTION

All commercial organizations are in the business of making money now and in the future. For this we are asked to continually improve on P Q C D M S, DSI, DSO, DPO, MTTR, MTBF, COPQ, OEE, TEEP, etc. How does our action on the shopfloor impact the finances of the organization? Does it affect P&L? Balance Sheet? Cash Flow? This is the question most of the operations professionals would have. Periodically, the team is also asked to ratify certain financial ledgers and statements such as – Inventory, status of CAPEX, non-moving and slow-moving material statement, etc. For more involved contributions from the Operations team, it is always desired that they should understand the meaning & implications of the terminologies that are used and how their day-to-day activity affects the financial performance of the Organization.

This training program strives to unbox the mysteries of financial world to the Operating professionals so that they can more proactively contribute to the financial well-being of the Organization.
