

**Last date for registration 22 August 2025**

## INTRODUCTION

In today's fast-paced, ever-changing world, creativity and innovation have become essential skills for success. The ability to think outside the box, generate new ideas, and solve complex problems is crucial for individuals, organizations, and societies to thrive. Creativity fuels progress, drives growth, and opens doors to new opportunities. Without innovation, businesses stagnate, and individuals miss out on personal and professional growth.

The rapid pace of technological advancements demands adaptability, creativity, and innovative thinking. Innovation drives economic growth, creates jobs, and improves quality of life.

In a world where automation and AI are increasingly prevalent, human creativity and innovative thinking set us apart. Developing these skills enhances our ability to navigate uncertainty and stay relevant. Creativity and innovation enable us to question the status quo, challenge assumptions and create a better future

By embracing creativity and innovation, we unlock our full potential, drive meaningful change, and shape a brighter tomorrow. Investing in creative thinking and innovative practices yields tangible benefits for individuals, organizations, and society as a whole. Cultivating creativity and innovation is a necessity now for the survival and progress

One day program is intended to give fundamental understanding on creativity and innovation, which can be used in day-to-day work as well in personal life

## FOCUS AREAS
