

INTRODUCTION

For Survival and growth, companies need to work on improvements. It is not a one-time exercise but to be done continuously, consistently, and consciously by everyone in the Organization. Kaizen methodology focuses on clear understanding of the concept and its application in real-time.

Poka-yoke supports companies to improve quality of their Product to move towards zero defects. Customer expectation is moving towards this. The program focus is on understanding of the origin, concept, levels, keys, and steps for application. Poka Yoke is an improvement thinking to minimise or avoid happening of failures.
