

Essentials of VDA 6.3 implementation Date: 22 to 23 September, 2025 Venue: IMTMA Technology Centre, Pune

### **INTRODUCTION**

**VDA 6.3 (Verband der Automobilindustrie)** defines a process based audit standard for evaluating and improving controls in a manufacturing organisation's new product introduction and manufacturing process. This standard caters to the German automotive industries whose requirements are unique and complex.

In the present day race to outbeat others, TTM (time to market) has become very short. Hence, the demand for adhering to the standard has increased. The standard digs deep into each process element over the entire product realisation cycle with strong focus on Preventive Quality Assurance. Emphasis is on identifying, assessing and managing risk. If implemented in true spirit, there is almost no chance of making mistakes. Thereby, none of the key performance indicators, QCD, demanded by Customers, are compromised.

The German automobile industry has made it mandatory for Tier 1 and Tier 2 suppliers to comply with the requirements of this standard and get certified.

Keeping this in view, Indian Machine Tool Manufacturers Association is organizing an Offline programme on **Essentials** on **VDA 6.3 implementation..** 

## **FOCUS AREAS**

- What is VDA
- Life cycle management in VDA 6.3 deployment
- WHY VDA 6.3 audits
- Relation to VDA with IATF 16949:2016
- Type of audits in VDA 6.3
- Relationship with different CSRs
- Explanation of Detailed requirements of VDA 6.3
- Explanation of requirements from P1 to P7
- Auditing methodology as per VDA 6.3
- Scoring pattern for VDA 6.3 audits
- VDA 6.3 standard and CSRs of different customers
- Auditing guidelines as per VDA 6.3 2023 edition.
- VDA 6.3 deployment in the supply chain
- In-class exercises on VDA 6.3 to built the understanding

### **KEY TAKE AWAYS**

With a proper understanding of the standard, one can derive the following benefits in the entire product realisation cycle.

- Shorter "Time to market".
- Improved product quality
- Improved process quality
- Improved supplier quality
- Smoother operation
- Eliminates in-house defects, also at customers end.
- Project cost is under control
- Enhances Customer satisfaction
- Ensures smooth ramp-up after SOP.

## **PARTICIPATION FEE**

Rs. 10450/-

+18% GST

IMTMA Members/ Micro Companies/ Individuals/ Educational Institutions / Students/ IMTMA Non Members/ Others USD 415/-Overseas Participants

Group Concession: 10% for 3 to 5 and 20% for 6 and more delegates being nominated from the same company

# **PARTICIPANT PROFILE**

Managers, Executives, Engineers from QA, SQA, Supply Chain, Manufacturing, Operations, Tooling, Maintenance etc.

# **FACULTY**

This programme will be conducted by Mr. Charudatta Atre.

**Mr. Charudatta Atre** is a Qualified Mechanical Engineer and industry expert with more than 30 years of experience the field of Quality, Lean Management, Six Sigma, Lean Six Sigma etc. Mr. Charudatta is qualified Master Black Belt in Lean Six Sigma. He has conducted several training programs, work shops in topics related to Lean Management, Six Sigma, Lean Six Sigma etc. Mr. Charudatta Atre is former Associate Vice President of Quality with Kalyani Maxion Wheels Pvt Ltd. He has also served in TUV SUD South Asia, Saint Gobain Sekurit Ltd.
