INTRODUCTION

The purpose of this course is to **“How to be an Effective Trainer”**. This course will definitely help participants to boost confidence by imparting desired knowledge, skill and attitude so as to become a good trainer

This course along with Presentation Skills will make participants competent to solve even the complex problems. Presentation Skills is separately offered

Training others is not easy even if one has very sound knowledge and it requires some special skill set. Keeping this in view, Indian Machine Tool Manufacturers' Association (IMTMA) is organizing a 3 day interactive programme on Train the Trainer.

The programme will focus on various elements of “Trainer’s Skill”. The Trainer shares his rich global experience in the domain and will be more interactive so that the delegates can get back with clarity on action plan which they can implement from the next day.

Individual and Group exercises and discussions carried out during the programme, will enable the delegates to relate and discuss the current challenges they are facing.
