

Last date for registration 16 March 2026

INTRODUCTION

Design engineering is a key function of manufacturing. Machine designers encounter various challenges while visualizing and designing the product such as understanding the need, configuring kinematics, system motions, selection of critical elements, material, ensuring high reliability, ease of manufacturing and assembly at low cost. A successful designer, needs to have a complete knowledge on manufacturing activities from design to dispatch.

Skilled women work force are finding opportunities in manufacturing industry. To encourage and enable women to perceive their careers Indian Machine Tool Manufacturers' Association is conducting the training programmes as part of women empowerment initiative which is a primary objective of the Association and it's member companies.

FOCUS AREAS

Training @ IMTMA Technology Centre, Pune

- Strength of Materials, Engineering Mechanics and Machine Kinematics
- SOLIDWORKS - Hands-on CAD Training
- CAD Modelling and creating Manufacturing drawings
- Geometric Dimensioning & Tolerancing (GD&T)
- Conceptual design of a Special Purpose Machine
- Calculations for Force, Torque & Power
- Design of Milling Spindle for SPM
- Design of linear CNC Axis
- Selection of LM Guides ways & Ball Screws
- Design of Fixture
- Introduction to Hydraulics and Pneumatics
- Electric Motors: Application, Selection & Sizing
- Finite Element Methods FEM - What, Why, and How?
- Introduction to CNC machines and part programming
- Machining of sample components on CNC Machine
- Dimensional Metrology and Measuring Instruments
- Soft Skills for working environment homogeneity
- Speaking, writing, and presentation skills - To be a Smart Employee

Training Methodology

Candidates Selection criteria

- Women Graduate / Diploma Engineer from Mechanical and allied disciplines, passed out from Year 2022, 2023 & 2024 from across India
- Aggregate score preferably above 60% in Engineering
- Final selection based on performance in written test* and personal interview conducted by IMTMA

Unique Programme Features

- Experiential learning from Design and Manufacturing experts
- Hands-on training on machines and equipment at IMTMA Technology Centre
- Developing work culture and skill competency matching industry standards
- Placement support

Evaluation and Certification criteria

- Periodical test and assignments
- Performance evaluation
- Record of attendance
- Presentation Skills and Team Work

PARTICIPATION FEE

Nil

Participant Profile

- Training programme is non-residential
- Participants will bear the expenses of travel and stay during the entire duration (2 months) of training at their own cost
- Maintain 100% attendance during the period of training
- Attend all the tests and assignments
- Adhere to the designated dress code and safety norms of IMTMA
- Maintain work discipline during the entire training
- Abide by all instructions of faculty and IMTMA
- Post training, open to work anywhere in India without geographical barrier
- Shall not misuse/ mishandle/damage the equipment, machineries, computers, CAD software during training
