INTRODUCTION

The purpose of this course is to create awareness of importance and application of MSA. This course will help to prevent measurement errors. The course additionally also helps to understand the necessary and the unnecessary use of MSA in shop floor so as to get maximum benefits out of this technique

Type 1 and Type 2 errors of measurement system can lead to huge consumer and producer risk despite a good manufacturing process . Keeping this in view, Indian Machine Tool Manufacturers' Association (IMTMA) is organizing a 2 day interactive programme on **Measurement System Analysis ' MSA'.**

The programme will focus on various elements of MSA proven well in automotive industries which can be applied in non- automotive industries as well. The Trainer shares his rich global experience in the domain and will be more interactive so that the delegates can get back with clarity on action plan which they can implement from the next day.

Group exercises and discussions carried out during the programme, will enable the delegates to relate and discuss the current challenges they are facing.

FOCUS AREAS

- Objective of MSA
- Discrimination and Sensitivity
- Types of Error
- Bias
- Linearity (conceptual only)
- Stability (conceptual only)
- MSA for variable data (EV, AV, PV, GR&R, NDC etc)
- MSA for attribute data
- Signal detection method
- Risk Analysis
- Acceptable MSA outcome both for variable and attribute data
- Q&A

KEY TAKE AWAYS

- Deep understanding of AIAG MSA
- Reducing type -1 and type - 2 errors because of measurement
- Making measurement process and system strong
- Reduction of failures and problems at customer end due to measurement issues

PARTICIPATION FEE

Rs. 4999/-

+18% GST

IMTMA Members/ Micro Companies/ Individuals/ IMTMA Non Members/ Others

Rs. 2500/-

+18% GST

Professors

Rs. 999/-

+18% GST

Student

USD 200/-

Overseas Participants

Group Concession : 10% for 3 to 5 and 20% for 6 and more delegates being nominated from the same company

PARTICIPANT PROFILE

Individuals from the area of manufacturing, operations, quality, field quality and product/ process engineering.

Relevant companies:

- Auto OEMs (SIAM)
- Auto ancillaries (ACMA)
- Die casting units (ALUCAST) Pump manufacturers (IPMA) Aerospace manufacturers (SIATI)
- Defence & Railway Establishment (PSUs / OFBs) General Engineering (IEEMA / AIEEMA)
- Other Capital goods manufacturing industries (ICEMA / AMMA-India / PPMAL)

FACULTY

This programme will be conducted by, IMTMA Subject Matter Expert.

He is a Qualified Mechanical Engineer and industry expert with more than 30 years of experience the field of Quality, Lean Management, Six Sigma, Lean Six Sigma etc. He is qualified Master Black Belt in Lean Six Sigma. He has conducted several training programs, work shops in topics related to Lean Management, Six Sigma, Lean Six Sigma etc. He is former Associate Vice President of Quality with Kalyani Maxion Wheels Pvt Ltd. He has also served in TUV SUD South Asia, Saint Gobain Sekurit Ltd.
