INTRODUCTION

The purpose of this course is to create a vision to achieve manufacturing excellence through improving OEE by practically identify losses and their reduction opportunities so as to take practical and feasible solutions to reduce losses.

There are lots of waste and losses in system. The reduction of such waste and losses can give huge benefits to the organization. Keeping this in view, Indian Machine Tool Manufacturers' Association (IMTMA) is organizing a 2 day interactive program on 'How to Improve OEE and achieve Manufacturing Excellence'

The programme will focus on OEE and losses identification proven well in automotive industries which can be applied in non- automotive industries as well. The Trainer shares his rich global experience in the domain and will be more interactive so that the delegates can get back with clarity on action plan which they can implement from the next day.

Group exercises and discussions carried out during the programme, will enable the delegates to relate and discuss the current challenges they are facing.

FOCUS AREAS

- Productivity Metrics using OEE
- Common myths in calculating OEE and taking account of losses
- Monitoring of OEE - Software solution for measurement of OEE
- OEE & Industry 4.0

KEY TAKE AWAYS

1. Calculating OEE
2. Understand how OEE can be monitored using software
3. Understand Benefits of monitoring OEE
4. Other waste (Muda) not related to Equipment
5. Understanding how an automated productivity system is a first step towards Industry 4.0

PARTICIPATION FEE

Rs. 4999/-
+18% GST

**IMTMA Members/ Micro Companies/
Individuals/ Educational Institutions /
Students/ IMTMA Non Members/
Others**

Rs. 999/-
+18% GST

Professors/ Student

USD 200/-
Overseas Participants

Group Concession : 10% for 3 to 5 and 20% for 6 and more delegates being nominated from the same company

FACULTY

The program shall be delivered by **Mr. Shashiprakash L S**

Mr. Shashiprakash L S, is a Mechanical Engineer & MBA with 40 years of experience in all manufacturing functions - across Automotive, Non-Automotive (Precision Engineering, Heavy Engineering, Capital Equipment Polymer Industries). He has been a Lean Practitioner since the year 2000. He has worked as COO & CEO in multiple organizations including MNCs and reputed Indian companies, for over a decade.

Having implemented Lean and ToC techniques across different Industries, he was featured in Business Today for effecting turnaround from a very difficult industry and was called 'Josh Machine'. He has authored a book titled - 'A Journey from Impossible to I'm Possible' which is under release currently. He is a good orator and has a penchant for teaching concepts through stories and anecdotes.
