

## INTRODUCTION

The LM guides is one of the most commonly used machine element which provides highly reliability, high speeds, higher precision, very low friction, easy replaceability and easy maintenance. These are used in building equipment in all fields of engineering and machine tools. Hence, there is a need for knowhow in types of LM guides, selection, design and assembly of LM guides.

Keeping this in view, Indian Machine Tool Manufacturers' Association (IMTMA) is organizing a 3 Hrs Online programme on "**LM Guideways - Types, Applications and Selection**"

## FOCUS AREAS

- Types of LM guides and their application
- Analysis and selection
- Design inputs

## KEY TAKE AWAYS

- Acquire knowledge about LM guides
- Basic analysis of application data
- Selection & basic design kow-how
- Basic assembly know-how

## FEE PER PARTICIPANT (PER LOGIN)

**Rs. 1500/-**

+18% GST

**IMTMA Members/ Micro Companies/ Individuals/ Educational Institutions / Students/ IMTMA Non Members/ Others**

## FACULTY

This Program will be conducted by Mr. Shivakumar

He has extensive experience having worked in HMT R&D for over 25 years in development of CNC machine tools. Further, he is associated with THK for over 20 years as Technical advisor by providing technical assistance in selection and use of LM guides in various fields of engineering.

### For Registration Contact
