

INTRODUCTION

Quality, Cost and Delivery are the 3 most important aspects for any organization for achieving **operational excellence and cost reduction**. This programme will provide you with the **practical aspects** related to the fundamentals as well as latest Techniques in **Operational function** to put you on the path to success.

Despite of the turbulent and uncertain market conditions, it is necessary to keep growing. Using the best available proven techniques and the technology is absolutely necessary to embark upon these challenges.

Keeping this in view, IMTMA is organizing an online training on "**Operational Excellence through QCD improvement**". The faculty will take through implementation strategies to improve Quality and Productivity leading to Cost reduction. The sessions will be supported with actual case studies and examples.

FOCUS AREAS

- Overview Of Business – Current situation
- **How Operations can add value and create profit for the organization**
- Basic concepts in Operations
- **Techniques to improve Quality and in turn reduce cost and improve productivity**
